# Jaann Norit

## SUMMARY STATEMENT

Proven track record and passion for data analysis in various fields; ability to use up-to-date knowledge and tools that companies can adapt to be competitive in the constantly evolving world.

## SKILLS

**Languages:** German mother language • English fluent, French basics

**Software:** R advanced, Excel advanced, Word/Powerpoint advanced, Python basics, Stata/SPSS basics, SQL

## PROJECT EXPERIENCE

### Explorative Data Analysis

September 2016

- Explored a dataset with R and Excel concerning customers of a credit institute
- Spotted anomalies and outliers in the data and made a recommendation of how to handle them
- Investigated the data on a descriptive statistical approach and plotted the correlations and distributions

### A/B Testing

September 2016

- Set up an experiment in order to achieve and optimize customer experience
- Determined and analyzed business metrics via statistical tests and confidence levels
- Calculating Confidence Intervals of binominal distributed variables and base decisions on practical and statistical significance

### Test a Perceptual Phenomenon

January 2016

- Used descriptive statistics and a statistical test to analyze the Stroop effect
- Used statistical inference to draw a conclusion based on the results

### University Ulm – Master Thesis

September 2014–August 2015

- Explored Data of the Bitcoin Trading Markets with R and Excel
- Investigated Alternative Cryptocurrencies in the sense of market size and trading platforms
- Gave an overview of the block chain technology

## EDUCATION

**Udacity** - Data Analyst Nanodegree

July 2015 – present

**University Ulm** - Master Degree in Economics

October 2012 – August 2015

**University Munich** - Bachelor Degree in Economics

October 2008 – April 2012
